ABOUT OUR PROGRAMS

WAMPANOAG FIELD TRIP ENHANCEMENT

In our Wampanoag Workshop, Native Museum teachers discuss their relationship to the land, respect for all living beings, and seasonal ways of life. The program takes place inside our Visitor Center, where participants are able to handle reproduction artifacts and animal furs. Students may also play a traditional Wampanoag game called 'hubbub.'

COLONIAL FIELD TRIP ENHANCEMENT

The Colonial Life Workshop takes place on the Colonial Education Site, which includes two fully-furnished reproduction 17th-century houses. Over the course of the program, participants will explore the 17th-century world of the English Colonists, and experience what their lives would be like if they traveled back in time. Children may have a chance to play Colonial games or take part in one of the many chores that occupied a 17th-century child's day. Older students and adults may experience Colonial life by performing activities people of their own age group might participate in: both leisure and work! (Alternate activities and locations are provided if the weather conditions are poor).
