

A genealogical profile of Webb Adey

Birth: Webb Adey was born by 1612, as he was an adult in 1633.

Death: He died in Plymouth on March 4, 1651/2.

Ship: Unknown

Life in England: Nothing is known of his life in England.

Life in New England: Webb Adey, or Adey Webb as the name was sometimes written, was a colonist of low social and economic status. He first appeared in Plymouth in the March 25, 1633, tax list. He was granted land in the colony, and owned a house — sometimes two. However, he was also presented to the court on a number of occasions for “disorderly living” and was eventually required to become a servant to Thomas Prence, the governor for that year. By March 1, 1641/2, he was apparently living on his own again and back in trouble for “disorderly living” for which he was jailed in June. By the time of his death he owned a small house and garden with very meager furnishings, and twelve acres of land. His estate totalled £7, 7s, 10d, with debts of £2, 6s.

Family: No wife or children are recorded for Webb Adey.

Where do I go from here?

Researching your family's history can be a fun, rewarding, and occasionally frustrating project. Start with what you know by collecting information on your immediate family. Then, trace back through parents, grandparents, and beyond. This is a great opportunity to speak to relatives, gather family stories, arrange and identify old family photographs, and document family possessions that have been passed down from earlier generations.

Once you have learned all you can from family members, you will begin to discover other sources. A wide variety of records can help you learn more about the lives of your ancestors. These include birth, marriage, and death records; immigration and naturalization records; land records; census records; probate records and wills; church and cemetery records; newspapers; passenger lists; military records; and much more.

When you use information from any source — an original record, a printed book, or a website — always be careful to document it. If you use a book, you should cite the author or compiler, the full title, publication information and pages used. Also be sure to record the author's sources for the information. If the author's sources aren't provided, you will have to try to find the original source. Many genealogical works contain faulty information, and the Internet also contains many inaccuracies. In order for your work to be accepted — by lineage societies and other genealogists — it must be properly documented.
