

A genealogical profile of John Hampden

Birth: John Hampden was born by 1600, assuming he came to New England as an adult.

Death: Nothing is known of his place or date of death.

Ship: [possibly] Charity or Swan, 1622

Life in England: John Hampden was described by Winslow as a “gentleman of London.” He has been identified as the John Hampden, Puritan Member of Parliament, but this remains a possibility only.

Life in New England: Information about John Hampden comes primarily from Edward Winslow. According to him, Hampden was a gentleman of London wintering with the Plymouth colonists in the winter of 1622/3. Phineas Pratt, one of Weston’s men from Wessagusset [Weymouth], knew him, a fact suggesting that Hampden was one of the men who had come to New England in the summer of 1622.

Family: Nothing is known of any family members.

Where do I go from here?

Researching your family's history can be a fun, rewarding, and occasionally frustrating project. Start with what you know by collecting information on your immediate family. Then, trace back through parents, grandparents, and beyond. This is a great opportunity to speak to relatives, gather family stories, arrange and identify old family photographs, and document family possessions that have been passed down from earlier generations.

Once you have learned all you can from family members, you will begin to discover other sources. A wide variety of records can help you learn more about the lives of your ancestors. These include birth, marriage, and death records; immigration and naturalization records; land records; census records; probate records and wills; church and cemetery records; newspapers; passenger lists; military records; and much more.

When you use information from any source — an original record, a printed book, or a website — always be careful to document it. If you use a book, you should cite the author or compiler, the full title, publication information and pages used. Also be sure to record the author's sources for the information. If the author's sources aren't provided, you will have to try to find the original source. Many genealogical works contain faulty information, and the Internet also contains many inaccuracies. In order for your work to be accepted — by lineage societies and other genealogists — it must be properly documented.
