

A genealogical profile of Jasper More

Birth: Jasper More was baptized August 8, 1613, a reputed son of Samuel and Katherine (More) More.

Death: He died the winter of 1620/1.

Ship: *Mayflower*, 1620

Life in England: Jasper was one of four children, two sons and two daughters, born to Katherine More. In 1616, Katherine's husband accused his wife of long-term adultery with Jacob Blakeway, maintaining that some, if not all, of the children were actually Blakeway's. After a separation and lengthy divorce proceedings, the four children were brought to London. There they were placed under the care of John Carver and Robert Cushman, who transported them to what would become Plymouth Colony.

Life in New England: Jasper was placed in the care of John Carver, and came to Plymouth Colony with John and Catherine Carver; another child in their care, Desire Minter; a boy, William Latham; an unnamed maidservant; and two manservants, John Howland and Roger Wilder. Jasper and Roger Wilder died in the winter of 1620/1; the Carvers died in the summer.

PLYMOUTH ANCESTORS

Where do I go from here?

Researching your family's history can be a fun, rewarding, and occasionally frustrating project. Start with what you know by collecting information on your immediate family. Then, trace back through parents, grandparents, and beyond. This is a great opportunity to speak to relatives, gather family stories, arrange and identify old family photographs, and document family possessions that have been passed down from earlier generations.

Once you have learned all you can from family members, you will begin to discover other sources. A wide variety of records can help you learn more about the lives of your ancestors. These include birth, marriage, and death records; immigration and naturalization records; land records; census records; probate records and wills; church and cemetery records; newspapers; passenger lists; military records; and much more.

When you use information from any source — an original record, a printed book, or a website — always be careful to document it. If you use a book, you should cite the author or compiler, the full title, publication information and pages used. Also be sure to record the author's sources for the information. If the author's sources aren't provided, you will have to try to find the original source. Many genealogical works contain faulty information, and the Internet also contains many inaccuracies. In order for your work to be accepted — by lineage societies and other genealogists — it must be properly documented.

IMPORTANT GENEALOGICAL RESOURCES

New England Historic Genealogical Society

Founded in 1845, NEHGS is the country's oldest and largest genealogical society. The library contains over 200,000 books, plus significant manuscript and microfilm collections, and a circulating library by mail.
