

A genealogical profile of John Newcomen

Birth: John Newcomen was described as a young man in 1630.

Death: He died in Plymouth in 1630.

Ship: Unknown, by 1630

Life in England: “Newcomen” was a rare surname in England. Most members of the family found by John Hunt had connections to Martyn le Newcomen of Saltfleetby, Lincolnshire, and this might be a clue to his origin.

Life in New England: John Newcomen’s only appearances in the Plymouth Colony sources, William Bradford’s *Of Plymouth Plantation*, 1620–1647, and Thomas Morton’s *New English Canaan*, referred to his death. He was shot and killed by John Billington, who was subsequently tried and executed for murder. There has been some speculation that “New-comin” was not, in fact, his surname but his status of newcomer to the colony. If so, all that is left is the name “John” in which case no further identification is possible.

Family: There is no evidence that John Newcomen married or had children.

Where do I go from here?

Researching your family's history can be a fun, rewarding, and occasionally frustrating project. Start with what you know by collecting information on your immediate family. Then, trace back through parents, grandparents, and beyond. This is a great opportunity to speak to relatives, gather family stories, arrange and identify old family photographs, and document family possessions that have been passed down from earlier generations.

Once you have learned all you can from family members, you will begin to discover other sources. A wide variety of records can help you learn more about the lives of your ancestors. These include birth, marriage, and death records; immigration and naturalization records; land records; census records; probate records and wills; church and cemetery records; newspapers; passenger lists; military records; and much more.

When you use information from any source — an original record, a printed book, or a website — always be careful to document it. If you use a book, you should cite the author or compiler, the full title, publication information and pages used. Also be sure to record the author's sources for the information. If the author's sources aren't provided, you will have to try to find the original source. Many genealogical works contain faulty information, and the Internet also contains many inaccuracies. In order for your work to be accepted — by lineage societies and other genealogists — it must be properly documented.

IMPORTANT GENEALOGICAL RESOURCES

New England Historic Genealogical Society

Founded in 1845, NEHGS is the country's oldest and largest genealogical society.
