

A genealogical profile of John Cannon/Carman

Birth: John Cannon's date of birth is unknown.

Death: His date and place of death is unknown

Ship: *Fortune*, 1621

Life in England: Nothing is known of his life in England.

Life in New England: John Cannon arrived in Plymouth Colony in the fall of 1621. In the land division of 1623 he received one acre, indicating he had no family with him. His name does not appear in the division of cattle held in Plymouth Colony in May 1627, so he had either died or left the colony by that time.

In a 1638 Plymouth Colony court record, John Cannon's name was given as "Carman." This notation has led to speculation that he was identical with the John Carman who arrived in Massachusetts Bay in 1631.

Family: John Cannon was joined with William Tench in the land division, so it is possible that he had some connection with the Tench family.

PLYMOUTH ANCESTORS

Where do I go from here?

Researching your family's history can be a fun, rewarding, and occasionally frustrating project. Start with what you know by collecting information on your immediate family. Then, trace back through parents, grandparents, and beyond. This is a great opportunity to speak to relatives, gather family stories, arrange and identify old family photographs, and document family possessions that have been passed down from earlier generations.

Once you have learned all you can from family members, you will begin to discover other sources. A wide variety of records can help you learn more about the lives of your ancestors. These include birth, marriage, and death records; immigration and naturalization records; land records; census records; probate records and wills; church and cemetery records; newspapers; passenger lists; military records; and much more.

When you use information from any source — an original record, a printed book, or a website — always be careful to document it. If you use a book, you should cite the author or compiler, the full title, publication information and pages used. Also be sure to record the author's sources for the information. If the author's sources aren't provided, you will have to try to find the original source. Many genealogical works contain faulty information, and the Internet also contains many inaccuracies. In order for your work to be accepted — by lineage societies and other genealogists — it must be properly documented.
