

A genealogical profile of Edward Shaw

Birth: Nothing is known of Edward Shaw's date or place of birth.

Death: Nothing is known of his date or place of death.

Ship: Unknown, 1632

Life in England: Nothing is known of his life in England.

Life in New England: Edward Shaw appeared in several Plymouth Colony records between January 3, 1632/3, and December 3, 1638. He was apparently the servant of William Bennett until the latter's removal to Massachusetts Bay Colony about 1633–4. Edward Shaw was living in Duxbury in 1637. On December 3, 1638, he was hired by Robert Bartlett for a year. This employment agreement is the last Plymouth Colony record in which he appeared, so he may have left for another colony at that time.

Family: There is no evidence that Edward Shaw married or had children.

Where do I go from here?

Researching your family's history can be a fun, rewarding, and occasionally frustrating project. Start with what you know by collecting information on your immediate family. Then, trace back through parents, grandparents, and beyond. This is a great opportunity to speak to relatives, gather family stories, arrange and identify old family photographs, and document family possessions that have been passed down from earlier generations.

Once you have learned all you can from family members, you will begin to discover other sources. A wide variety of records can help you learn more about the lives of your ancestors. These include birth, marriage, and death records; immigration and naturalization records; land records; census records; probate records and wills; church and cemetery records; newspapers; passenger lists; military records; and much more.

When you use information from any source — an original record, a printed book, or a website — always be careful to document it. If you use a book, you should cite the author or compiler, the full title, publication information and pages used. Also be sure to record the author's sources for the information. If the author's sources aren't provided, you will have to try to find the original source. Many genealogical works contain faulty information, and the Internet also contains many inaccuracies. In order for your work to be accepted — by lineage societies and other genealogists — it must be properly documented.
